About Designs by Studio C

January 2019

Designs by Studio C is a blog that provides free DIY furniture plans to the public to build high-end furniture pieces, some based off of designs found in high-end retail catalogs. Designs by Studio C also focuses on home improvement projects such as full room remodels, drywall installation, flooring replacement and installation and anything else that is related to repairing or enhancing the home, with clearly written and easy to follow how-to instructions. Designs by Studio C also shares knowledge related to tools and building materials, and how these apply to specific projects.

Hi, I'm Cher!

Blogs I've Contributed to:

- The Design Confidential (2012 to 2014)
- Ashlee Marie (formerly I'm Topsy Turvy) (2015)
- Domestically Speaking (2016)

My Name is Cher-Ann Texter

I started Designs by Studio C in April of 2012. I am a trained draftsman and have an AAS in Drafting. In addition to Designs by Studio C, I work in the Design Department of a box manufacturing facility, designing packaging to meet the needs of various customers. I have been woodworking, building furniture and completing my own home improvement projects since 2007. Currently, I am in the process of rebuilding my home since a tree fell through it in July of 2018. I love DIY and home improvement projects which allow me to transform any space into something truly unique.
