

Project Feature – Caddy Inspired by a Magazine Holder

I received an email from Ryan W. who was so kind to mention that he had completed his third project using my plans! How exciting!! I am so flattered that he found my plans interesting enough to actually build a few projects from them!

I asked if he would allow me to share photos so today, Ryan's Magazine Holder (built from [these plans](#)) is our first feature!

Thank you so much, Ryan! You did an awesome job and I love the sleek black paint!!

Got a project you've completed using my plans? Share photos with me at [cher {at} designsbystudioc {dot} com](mailto:cher@designsbystudioc.com) or [designsbystudioc {at} gmail {dot} com](mailto:designsbystudioc@gmail.com). I would love to feature your work on DbSC!

Until next time,

Happy Creating!
